Verse 1;

I've woke up in my bed from the night you cheated
I've got a sick feeling it's been repeated
I'm sitting here and I don't know what to do
Every time I get a text I jump to my phone
Your best friend told me and now I'm all alone
You were my everything you had my mind blown
I guess it's my time to walk out the door
All i ever asked of you was to care for
Show me the reassurance yeah uh,
But the question lies what the hell for?
I couldn't of meant anything to you at all
I was on a high before this and now I'm on a fall
I hope it was all worth it cause now you've lost me
It only happened last night and I'm writing this song
All this sex on you're mind you think you're so strong
But I'll be the stronger person to get up and walk away

Hook;

You should of told me that you never loved me
Lying it only made everything so much worse
Girl I'm leaving now cause I can't take anymore
One minute you care, the next you love me then you
don't
I'm so confused I don't where I stand with you
Goodbye, it's the only thing I can do
I'm so gone, I love you but I'm saying goodbye
This is it, goodbye

Verse 2;

Even though somehow I feel this is my fault
I can't eat, I can't sleep it feels like I'm in a vault
You said you only cared about me to an extent
What the fuck does that mean I'm sick of the torment
I just wish this sick feeling would go away
Dying to phone you but I don't wanna sound cliché
One question I wanna ask is why did you lead me
astray?
Images running through my head they're on replay

Even though you cheated I still want you for some
reason
My mind is full of confusion it feels like I'm in a rainy
season
Where do I go from here I don't wanna start all over
But I guess I need to say goodbye
One day luck will finally come my way and I'll find
someone else
Someone to love me the exact same way that I loved
you

Hook;

You should of told me that you never loved me
Lying it only made everything so much worse
Girl I'm leaving now cause I can't take anymore
One minute you care, the next you love me then you
don't
I'm so confused I don't where I stand with you
Goodbye, it's the only thing I can do
I'm so gone, I love you but I'm saying goodbye
This is it, goodbye

Verse 3;

I can't understand why the hell I'm feeling like this
You broke my heart and all I want is a kiss
My friends keep telling me Dan you look stupid
But I look inside of me and I look at Cupid
That bitch can't say nothing I'm full of hurt
But no you run back to him and lift your skirt
Telling myself over and over that I really don't care
But then I look back and think of your love affair
And then almost straight away am back to square one
I could of give you everything you ever wanted
I wish I never fell for you the feelings have me haunted
I should have listened and never even started this
I hope when you realize what you've lost its me you
miss
When I look at him and think how the fuck is he better?
Good luck and goodbye, I'm out

Hook;

You should of told me that you never loved me
Lying it only made everything so much worse
Girl I'm leaving now cause I can't take anymore
One minute you care, the next you love me then you
don't
I'm so confused I don't where I stand with you
Goodbye, it's the only thing I can do
I'm so gone, I love you but I'm saying goodbye

Goodbye
