### "When The Lights Go Down"

See me through no don't hurt me  
No don't hurt me see me through  
When the lights go down on the broken hearted  
I want to be with you  
'cause being with you is the same as never growing  
older

Morning breaks as you awake  
Spring may call you have it all  
There's no doubt you bring it out

See me through no don't hurt me  
If it takes all night I will feed the fire  
See me through  
When the lights go down on the broken hearted  
I want to be with you  
'cause being with you is the same as never growing  
older

Morning breaks as you awake  
Spring may call you have it all  
There's no doubt you bring it out  
Oh see me through
