"Lend Me Love"

there's a sound it tears everything apart
it sounds in my heart
rain all over you and over me
down in my heart

we'll make out on a rainbow
we'll make out until everything has gone
lend me love lend me love

there's a sound of lust and overused
I wouldn't know what to do
bringing up these things that I can't stand
stranded I don't know what to do

we'll make out on a rainbow
we'll make out until everything has gone
lend me love lend me love
cry me a river cry me a river
cry me a river if it opens your heart
cry me a river cry me a river
if it helps you cope with this
out there finding gold

we'll make out on a rainbow
we'll make out until everything has gone
lend me love lend me love
