### "Making Waves"

Visit "[Making Waves](#)" on MotoLyrics.com

Even though I've been thinking of it  
I've got the luck, got the luck to say  
Don't know why you've been thinking of it  
Someone else got you in this way  
And you say it means nothing to you  
It's coming out in words like fees

You can't make waves all the love you break  
No, you can't seem to find peace of mind

You were right in the silence of it  
It's kindles the world would be  
You say that it's nothing to you but  
It's coming out in words like free  
You can't make waves al the love you break  
No, I can't seem to find peace of mind

And there is not much here  
To foci years  
No, you can't seem to find peace of mind

I make waves  
I make waves
