See me through
No don't hurt me
No don't hurt me
See me through
When the lights go down on the broken hearted
I want to be with you
'cause being with you
Is the same as never growing older
Morning breaks as you awake
Spring may call you have it all
There's no doubt you bring it out
See me through
If it takes all night I will feed the fire
See me through
When the lights go down on the broken hearted
I want to be with you
'cause being with you is the same as never growing
older
Morning breaks as you awake
Spring may call you have it all
There's no doubt you bring it out
Oh see me through
