Maybe it was just the look in your eyes
When I told you I loved you that night
and there was nothing i could do but sing
so just tell me how it felt when I gave you that ring

Well I can tell you how it felt for me
I can tell you that I felt like that king
that you saw in the last scene
of this movie but will you be my queen

Maybe it was just the feeling i got when you looked into
my eyes
and I stared into yours and told you that we never have
to say goodbye
you make me feel so invincible that why i'm singing
you this song
Oh baby it feels so right, so please tell me if this is
wrong

Well I can tell you how it felt for me
I can tell you that i felt like that king
that you saw in the last scene
of this movie but will you be my queen

oh...

well you make me feel so right
just tell me that this can be real
because honey I love how you make me feel

Well I can tell you how it felt for me
I can tell you that i felt like that king
that you saw in the last scene
of this movie but will you be my queen

I can tell you how it felt for me
I felt like a king
and if i'm a king then i'm in need of a queen
