I'm here right now, come and find me.
I'll be waiting where I first saw you
and I'm standing still just waiting for love to find me.
Come and find me..

White blinds, the sun sets, I see on the floor.

Even more I feel like I've never felt love before.

Give it to me, give it to me.

I'm reminded I'm alone when I open the door

and as for me I just can't feel anymore.

Bring it to me (I cannot go on for long)

and then you'll see (that we knew love existed all
along)

Just never looked because we thought we were wrong.

I'm here right now, come and find me.
I'll be waiting where I first saw you
and I'm standing still just waiting for love to find me.
Come and find me..

Long nights, as far as love I've never felt so poor.

I try, but hurt can be hard to ignore.

Look into me, what do you see?

I'm so tired of always feeling so sick.

Like a twitch, I'm kinda getting used to it.

Bring it to me (I don't wanna keep feeling wrong)

See what I see (that we knew love existed all along)

Just never looked because we thought we were wrong

I'm here right now, come and find me.
I'll be waiting where I first saw you
and I'm standing still just waiting for love to find me.
Come and find me..

I'm here right now, come and find me.

I'll..... I'll be waiting!

I'm here right now, come and find me.
I'll be waiting where I first saw you
and I'm standing still just waiting for love to find me.
Come and find me..
