I know in the past you've been so strong
And I know in the past I've been so wrong
But tonight it's on you see
I can see it in your face
Let me tell you something, I will win this race
You're the one to save me
You're the one to save me

Some love comes easy
But it's not enough to please me
Some love comes easy
But it's hard love that means the most
And easy's always wrong you know

I've told you this, I've told you once before
And I know exactly what I'm fighting for
As I look at the stars above
And the stars, they will never lie to me
I don't know, to me it's the weirdest thing
How sometimes you hate what you love

Some love comes easy
But it's not enough to please me
Some love comes easy
But it's hard love that means the most
Some love comes easy
But it's not enough to seize me
Some love comes easy
But it's hard love that means the most

Don't let me down
You're what I'm fighting for
For you to love me now
It's you that I adore

Some love comes easy
But it's not enough to please me
Some love comes easy
But it's hard love that means the most
Some love comes easy
But it's not enough to seize me
Some love comes easy

But it's hard love that means the most
Easy's always wrong you know
