Who am I?
On the menu of never wanted
In your eyes
I see you'll never forget this
I have lied
To you a million times
But I feel so different
So please just listen
I have a vision
And I feel so different tonight
I find myself standing here
With nothing but pain and fear
But I cant begin to go on
Knowing that
What I've done is wrong
The end is life
That curses me every day
Know that I
Care even though it seems as
I (don't lie?) (Deny?)(???)
But I will prove it this time
I feel so different
So please just listen
I have a vision
And I feel so different tonight
I find myself stand here
With nothing but pain and fear
But I cant begin to go on
Knowing that what Ive done is wrong
Who am I?
In your eyes
The end is life
Who am I?
