The Growing Unknown

Respect is something that you earn, funny how hate is too
Bridges collapse, crumble and burn, funny how you will too

Pre-Chorus

You want it, you need it, you taste it, you knew it
You had it, you blew it, it's going, going, gone

Verse

Welcome to the world of the growing unknown
Like a bare knuckle fight and you're down to the bone
Push come to shove you can not leave it alone
Cause you're driven by the lure of the growing unknown

Like a bullet in the chamber you're ready to fly
All cocked and loaded and someone will die
So you make your little fist and you give it a try
But the growing unknown says you are denied

Pre-Chorus

You want it, you need it, you taste it, you knew it
You had it, you blew it, it's going, going, gone

Chorus

It's water, under the bridge
And I hope you fuckin drown in it
It's water, under the bridge
And I hope you fuckin drown in it

Verse

Twisting my words you're a thorn in my side
Now you lay in a pile with the rest that tried
The growing unknown it says that you lied
And truth's coming fast and you're gunna collide

Tried to bury my name but you fell in the grave
It's a shame what was great just couldn't be
saved

The road to Hell good intentions paved
And the growing unknown just made you behave

Pre-Chorus

You want it, you need it, you taste it, you knew it
You had it, you blew it, it's going, going, gone

Chorus

It's water, under the bridge
And I hope you fuckin drown in it
It's water, under the bridge
And I hope you fuckin drown in it

Verse

Welcome to the world of the growing unknown
Like a bare knuckle fight and you're down to the
bone
Push come to shove you can not leave it alone
Cause you're driven by the lure of the growing
unknown

Like a bullet in the chamber you're ready to fly
All cocked and loaded and someone will die
So you make your little fist and you give it a try
But the growing unknown says you are denied

Chorus

It's water, under the bridge
And I hope you fuckin drown in it
It's water, under the bridge
And I hope you fuckin drown in it Come on
