feat. Wyclef

Standin on the corner, waiting for you all night  
Girl, where you've been?  
Left word that you'd be there

Found out that you took the red eye flight  
Called you on the phone, don't pick up, straight to voicemail  
Woah no, must be with your other love

He can't do it like me, he can't love you like me so,  
I ain't stressin, woah no I'll just get me, another love  
He can't kill it like me, you don't miss it from me so,  
I ain't stressin, woah no  
I'll just get me, another love

All the ladies in the area, let me see you put your hands  
on your area  
Wyclef in the area, oh Cab won't you talk to the girls  
now

She pop up like the sauna, vibe's got me feelin right  
Don't wait up, I'm out with my new friend, yeah  
She don't give me drama, do everything you don't  
Now guess what? Straight to voicemail when you call  
now,  
I'm with my other love

He can't do it like me, he can't love you like me so,  
I ain't stressin, woah no I'll just get me, another love  
He can't kill it like me, you don't miss it from me so,  
I ain't stressin, woah no  
I'll just get me, another love

She the best, she make a man wanna put his name on  
her chest  
I love the way the wind man be blowin up her dress  
And when we caress, kiss her on the neck, then vroom  
bully like the one shop for rents  
She said she wanna go all night

Look in her eyes, she got me hypnotized  
Through her red dress I see the bright light  
Hey girl, you the number one prize  
Number one prize, you the number one prize  
Put up your hand if you the number one prize  
Fellas in the place if you girl on the rise, put up her  
hand if she the number one prize

He can't do it like me, he can't love you like me so,  
I ain't stressin, woah no I'll just get me, another love  
He can't kill it like me, you don't miss it from me so,  
I ain't stressin, woah no  
I'll just get me, another love  
He can't do it like me, he can't love you like me so,  
I ain't stressin, woah no I'll just get me, another love  
He can't kill it like me, you don't miss it from me so,  
I ain't stressin, woah no  
I'll just get me, another love.
