So move like you never did (yeah)
Show me what you got (and)
Chuck me right off the grid
That look in your eyes, got me wanting more
But I've got the beat and I'll meet you on the
floor

Jump, jump and bring the floor down don't stop
Hands up and shout it out now jump, jump
Let's sing the night away, I want to see you smile
Let's bring the floor down in style

Wow, you really make me tick
And I'm off the wall
I'm so ready to explode
Count me down

Jump, jump and bring the floor down don't stop
Hands up and shout it out now jump, jump
Let's sing the night away, I want to see you smile
Let's bring the floor down in style
