I'm standing high above
I'm talking to the sky
And I'm dancing in distortion
I filled my life with all that's right
Thanks for leaving the door wide open

I know it's not over
I'm only getting closer to feel alive
Every step that I take
Brings me back to yesterday
We would drive away

Walking through my past
Everything has faded grey
In shadows, long ago
Life was always make or break
Do I give or do I take?
I see that, I know

I know it's not over
I'm only getting closer to feel alive
Every step that I take
Brings me back to yesterday
We would drive away

I want to be (something)
More than anything (so drive)
Far from this place
Take me away
From here

This can't be my exit, I know where I stand
This can't be my exit, I know who I am

Remember the days we drove away
Remember laughing in the rain
I believe in what I see and what I see is you

I know it's not over
I'm only getting closer to feel alive
Every step that I take
Brings me back to yesterday

We would drive away
