If it leads to something then I'm fine with it  
If it leads to nothing then oh fuck it!  
I gave up my misery  
I gave it all away  
I brought back the melody just to say

When you decide to say goodbye  
Leave it up to me my July  
When you decide to say goodbye  
Leave it up to me my July!

When you decide to say goodbye  
Leave it up to me to ignite your city light my July

And everything is a memory of how we used to be  
And life has no guarantees so we will see  
I know it's not easy, letting all this go  
But for all I know this will make you grow

When you decide to say goodbye  
Leave it up to me to ignite your city light  
When you decide to say goodbye  
Leave it up to me to ignite your city light my July

BURN!

When you decide to say goodbye  
Leave it up to me my July  
When you decide to say goodbye  
Leave it up to me my July!

When you decide to say goodbye  
Leave it up to me to ignite your city light  
When you decide to say goodbye  
Leave it up to me to ignite your city light my July
