Bustin' my ass for far too long
Trying to even things out

My life follows the same beaten path
I've seen enough to know what it's about

Everyday I say to myself, tomorrow will be different
Reality I have no clue what the fuck I'm doing

One day I'll cut these ropes for better or for worse
I know my actions will affect more than me
But this is not a first

One day I'll cut these ropes for better or for worse
I know my actions will affect more than me
This is not a first
This is not a first

I will never sell myself short
