You don't wanna know what I know
I know something about you
What and when and where and who
I don't wanna know what I know
I never asked to
Holding everything against you
I'm put to the test
Dirtier than the next
Skin your knees, crawl to me
Guaranteed, yes I am blind
Suffer, survive
Easy on the eyes, sew them shut sew them shut
Nothing in your eyes, only smut ya so what
Painted face, plastic eyes
See right through
Hit the lights
In the dark watching you
I'm put to the test
Dirtier than the next
Skin your knees, crawl to me
Guaranteed, yes I am blind
Suffer, survive
Candy coated, paper thin
Sliding down your throat
So take your picture
Where have you been
Candy coated like the rest
This one's rotting out
The skills that you possess
I'm not impressed
Skin your knees, crawl to me
If you are scum then what am I?
