

## No Warning "Growing Silent"

I won't break the silence just 'cause you ask me  
I won't change anything for anybody

Somewhere out there  
I know there's something for me  
I try and listen to my own words  
They don't make sense

I know exactly what I'm thinking  
The words don't come out  
If they did, would it matter?  
Would you listen?

I won't break the silence just 'cause you ask me  
I won't change anything for anybody

If I'm quiet, I'm thinking  
Don't ask what about?  
There's a reason for the silence  
And why the words don't come out  
If they did, would it matter?  
Would you fucking listen?

Left alone for how much longer  
It doesn't kill me, I feel stronger  
Left alone for how much longer  
It doesn't kill me, I feel stronger
