I can't fucking take it  
It's burning me through  
With each passing day  
It just gets worse

I can't fucking stand it  
Gotta break away  
Nothing in common  
Except this simple hate

No end in sight  
I want you'll to get out  
Pretending to care  
It's making me sick

I can't fucking stand it  
Gotta break away  
Nothing in common  
Except this simple hate

How much do you think I know?  
I know enough  
Enough to know  
I want to get out

Is this too much for you to do?  
Make me lose my faith in you  
Now I fucking know  
I want to get out
