

Cyrenic "The White's Of Our Lies"

Buried by the darkness
I see in your eyes
No one can save me as
I stare through the whites of your lies

[Chorus]
I used to be alive
How do I feel tonight
You paralyze my life
How do I run and hide
You are inside my mind

Waiting for the numbness
To turn into pain
We cannot face this
When the fury and peace are the same

[Chorus]
I know it sounds insane
How do I feel tonight
You paralyze my life
How do I run and hide
You are inside my mind (Mind, Mind)

How do I feel tonight
You paralyze my life
How do I run and hide
You are inside my mind (Mind, Mind)
