Now it's official
I've sent my body on a mission
I left my brain where it's belonging
Cause I won't need it where I'm going

Their heads are turning
We're so beautiful it's hurting
Bring on bananas and the bubbly
Cause we are ready to get ugly

Everybody lose it - We are going to smash this room
Everybody lose it - But not until the Boing Clash Boom
Everybody lose it - We are going to smash this room
Everybody lose it - But not until the Boing Clash Boom

Boing Clash Boom

Cheating is winning
We keep on winning til the morning
And keep on smiling when we're fallin
While the Boing Clash keep on calling

Everybody lose it - We are going to smash this room
Everybody lose it - But not until the Boing Clash Boom
Everybody lose it - We are going to smash this room
Everybody lose it - But not until the Boing Clash Boom
