"Sickly Sweet Holiday"

Visit "[Sickly Sweet Holiday](#)" on MotoLyrics.com

The lights are shining down but I feel dead
The sickly sweet holidays keep me in bed
But when I'm away, crying everyday
I wish that you were here when Christmas comes this
time each year

I'll wrap you up and send you to myself
I don't want anything from anyone else
I'm sitting in my room, dreaming of you
Oh I can't wait till you get here when Christmas
comes this time each year

So merry Christmas
And happy Hanukkah

I'm feeling better since you've returned my
calls
String up some Christmas lights let's deck these
halls
I've one more thing to say, don't ever go away
Oh I'm so glad you're here when Christmas
comes this time each year
