"Remember Me"

Remember me always, but do not grieve for me too long. I have tried always to comfort you in times of sorrow, and have made every effort to add joy to your life. I never wanted to cause you pain.

Peace for me is certain now, and I suspect I will have eternal sleep in the Earth I have loved so well.

Please, after your period of grieving for me, make room in your heart for another. You are the kind of human being that should always have a friend like me to love. Your kind and gentle heart should not be wasted on my memory too long. Give your love to another. I know your new friend will never take my place, because we had something very special.

It may not be quite the same, but a new devoted and loving friend/ companion will in time, become special in their own way.

You loved me very much and I loved you. My spirit will always be with you, and no matter how deep my sleep, my grateful heart will always remember you.
