

Now That's What I Call Music!

"Christmas Wish"

Visit "[Christmas Wish](#)" on MotoLyrics.com

It's Christmas night, I'm by the fireside
Wishing that you and I
Could share our love one last time
And, baby, I - I need you near me
Right here with me
For eternity
Exchanging gifts of warmth and tenderness
Holding you close, this is my Christmas wish

Christmas ain't the same without you
It just doesn't feel like it used to
Waiting for the day I see you again
I hold my breath and pray to the stars for you 'til then

Baby, I made some mistakes that I
Deeply regret inside
Why can't we give one more try
I loved you, girl, with all of my heart
Right from the start
Thought we'd never part (oh, no)
Craving your touch and your eternal bliss
That is my only Christmas wish
