I hardly know you, but there's something about you girl  
That's making this feel like a movie scene  
Where a king finds his queen  
Girl leave your worries at the office, school, or home  
I can make you forget all about your day  
Let me love the hurt away...

Let's watch a movie in the dark  
Steal kisses at the park  
As we lay beneath the stars  
It don't matter where we are

Let's Getaway, just for a day, no need to stay  
So I can shield you from the rain  
I want to give you good loving, much more than kissing  
and hugging  
Let's Getaway, just for a day, no need to stay  
Cuz I can take away the pain  
I want to give you good loving, much more than kissing  
and hugging

Come lay your body on a pillow made of love  
Let the warmth of the sun caress your soul  
Like a tea brewed from gold  
This is what it feels like when ecstasy is reached  
Like a trip to Bali, Spain, or Rome  
But we never left our home

Baby I'll have you home before the streetlights they  
come on  
And then I'll take you on a ride until the early morn...
