After the love we make I lie awake to watch you sleep
And I thank the stars for sending you to me
Never did I imagine I would find a perfect queen
And I pinch myself to make sure this ain't a dream

Oh girl I'm in love
You're the only woman that I'm thinking of
I can't believe you're mine
I'm taking on the world with a girl so fine

She is the reason that I get out of bed
She is the reason that I can do anything
It feels so right her love I can't deny
She is she is she is the reason why
She is the reason that I get out of bed
She is the reason that I can do anything
Sent from the sky the apple of my eye
She is she is she is the reason why

Since you've been in my life the days they seem to
bring me joy
And I feel a sense of innocence like a boy

You are the driving force that keeps me holding on
And I would never deny all the love that's inside of me

Oh girl I'm in love
You're the only woman that I'm thinking of
I can't believe you're mine
I'm taking on the world with a girl so fine

She is the reason that I get out of bed
She is the reason that I can do anything
It feels so right her love I can't deny
She is she is she is the reason why
She is the reason that I get out of bed
She is the reason that I can do anything
Sent from the sky the apple of my eye
She is she is she is the reason why

Just like a summer day
She warms the soul in so many ways

And just like the falling rain
She tends to wash away the pain...
