We will not surrender  
Never to let go  
Somehow we will break out  
We are the engine

We are the engine

This is where we will lie  
Never will we show  
Donâ€™t think you can take us  
We are the legion

A lesson (to learn) in our time (our time)  
To stand up when we fall down  
To make ends (make ends) with whatâ€™s mine  
(whatâ€™s mine)  
A lesser ever let me go

From Trust to Conformity

To fear where we live buys  
Nothing for us all  
You will not forget us  
Forever the fallen

A lesson (to learn) in our time (our time)  
To stand up when we fall down  
To make ends (make ends) with whatâ€™s mine  
(whatâ€™s mine)  
A lesser ever let me  
A lesson (to learn) in our time (our time)  
To stand up when we fall down  
To make ends (make ends) with whatâ€™s mine  
(whatâ€™s mine)  
A lesser ever let me go

Safety in the crowd, but what dâ€™ you want?

Theyâ€™re gonna take us down
