Little Blue Pill

I never thought that it would come to this
All it used to take was a smile and a single kiss
But now my body's failing my brain
And you're the only one who can save the day

Let's get something straight between us
Little Blue Pill Yeah Yeah Yeah
You gotta promise that you'll never leave us
Little Blue Pill Yeah Yeah Yeah

I'd rather swallow a pill
Than swallow my pride
I'll never crash and burn
With you by my side

It's so easy how you make it hard
And She's got expectations
let's raise the bar

Let's get something straight between us
Little Blue Pill Yeah Yeah Yeah
Promise that you'll never leave us
Little Blue Pill Yeah Yeah Yeah

I'm not the man I used to be
Once at attention
Now I'm at ease
(Stand Up) I need direction
(Stand Up) Motivation
(Stand Up) I need you standing up for me

Let's get something straight between us
Little Blue Pill Yeah Yeah Yeah
You gotta promise that you'll never leave us
Little Blue Pill Yeah Yeah Yeah
