(Ummm..ummm.ummm U Herd)

Verse:

Look now I'm so freakin happy

That you've come running back

I'm leavin, is what you said

Believing what other said without..

checking all the facts

(that's wack)

So now we're supposed to be all chipper

Like nothing occurred

(nooooo)

I'm sorry, no i'm not an Atari, you can't play me

That would not be fly

Bird..

Chorus:

It's way too late

I just can't be fake

I can't recreate this, I just can't recreate this and

You did it, you did it, you did it, you did it..

The moment's gone, yeah the moment's gone

Verse:

This here shouldn't be a shocker

(ohh nooo)

You ain't been no queen

You're love sick

(yeeaaooowwnn)

Lady I ain't no doctor

(your dream's deferred)

Look.. I'm just not your king

This ain't how I should be acting

(ah...all....all...aaa..aahhll)

All f'ing mean

But, you cause this, when you started unpacking

Don't want to fight, so, I got you a flight..

It's way too late

I just can't be fake

I can't recreate this, I just can't recreate this and

You did it, you did it, you did it, you did it..

The moment's gone, yeah the moment's gone
