Oh no go get your guns  
We'll all fight like cowboys and pray like nuns  
Then we'll dance around the open flames  
If it gets too hot then we'll have no shame  
No shame

And you say we talk to much  
Cause nothing changes, nothing changes  
So we don't talk enough  
Cause nothing changes, nothing changes, and no  
Oh Oh Oh Oh  
And no no

So wait here, sound the alarms  
Throw up your arms  
We've brought the entire army and we're starving  
So don't try anything smart  
There's plenty of ammunition and we've got our guard

Look now he's on the run  
Well I'm glad he tried, it's much more fun  
If we chase until the sun goes down  
We can take him out with no one else around  
No one else around  
No one else around  
No oh  
Oh no no

So wait here, sound the alarms  
Throw up your arms  
We've brought the entire army and we're starving  
So don't try Anything smart  
There's plenty of ammunition and we've got our guard

Stick around I've got a hunch  
We'll bomb this town and stop for lunch  
And never,  
Nevermind those awful cries  
It's not as real if you don't look in their eyes  
Don't look in their eyes  
Don't look in their eyes

Oh no  
Oh no no

So wait here, sound the alarms  
Throw up your arms  
We've brought the entire army and we're starving  
So don't try anything smart  
There's plenty of ammunition and we've got our guard

Don't look in their eyes  
Don't look in their eyes  
Oh no  
Don't look in their eyes  
Don't look in their eyes  
Oh no
