So I tell you that it's over
Now you're standing on your own
Left to face the world alone
Never thought that I would leave you
Ya didn't mean that much to me
I was just a fantasy
I never cheated never lied.
Never could get through to you no matter how I tried
didn't t hurt you or make you cry
I guess you know the reason why I said goodbye

Just let it go - reach for the sky
Just let it go - take my body high
Just let it go - straight to the top
Just let it go - don't you ever stop

Once again the phone is ringing
I try to make it clear to you
can't you realize were through
But you never get the message
Hanging ups all I can do
I don't wanna torture you
It isn't easy, what Ive done
Can't you just accept that I am happy now you're gone
I know you're sorry but it's true
Get up off the floor boy what ya gonna do?

Ricky Ricks gonna drop da dope logistics and
everybody here can just get with it
Dance like you never danced before my rhyme styles
fat and I'm burning dance floors
Up da way I rocked da Jamms back to attack with
another grand slam
So get with it get g-get with it Da Force is back and the
sky da limit
Move like ya really don't care holler if ya hear da sound
and your mind stays in there
And Im a go to work on this track break it down and
bring da beats back for da ninety five
Were an point so keep da vibes alive and doing what ya
know so set ya mind free and let ya body go
