### VERSE 1

Here I go again, singing like we did back then  
Don't you ever listen to the words I say  
Why do you go to war, tell me what you're fighting for  
Will you ever see another day.  
I don't care about race or religion, It's hard to fight,  
easy to listen  
Live your life before it's gone, making sense where  
there is none  
See the sun as it starts a new day, watch the clouds as  
they're turning  
away  
Takin' away the fear and greed, just a little hope is  
what we need.

### CHORUS

People let me hear you say  
All we need is some love, some love  
That's all we need  
x 4

### VERSE 2

I just can't forget, how did I feel no regret  
When I think of all the things I've done  
Then a tear will fall, makes my life seem very small  
Looking down the barrel of a gun.  
Why is it our nature to kill? We always have, we always  
will  
Find a way for life to survive, only faith can keep us  
alive  
Out of the dark and into the light, a new beginning is in  
sight  
Now it's time to follow my lead, just a little trust is what  
we need.

### REPEAT CHORUS

### RAP

Now here comes the love daddy 'O' wid ma sugar flow  
leave da world alone  
give the young ones a chance to grow up, a drink from  
the fountains of  
love,  
all wars will end, all colors should blend.  
Coz I be the same as you be but when someone sees  
me,

even though I'm raw I'm still humanity, and it don't  
matter what ya use  
ta,  
we are the world and we be da future.  
REPEAT CHORUS
