rap1

Cast your eyes on a vision , here comes the raw rap  
precision  
Paradise wild that's how we livin'  
Long beach style on the regular  
Things be blowin' up all day like my cellular  
When I flex it's time to party  
So y'all can go ahead hit the surf break out the rum  
bacardi  
Mad skills on the rise again  
with the summer time rhyme solos out there's miles  
again  
I'm hittin' on the down low  
with something for the beach or ya jeep or ya condo  
the summertime's here girls in bikinis with their sun tan  
glow and I don't care  
As far as the eye can see  
there's a hundred beach bunnies on the beach and  
they're jockin me  
now that's the lick and it's a pity  
that you and yours ain't loungin in the city

Vox

Do ya wanna go down , Do ya wanna go down with me  
If ya ready come and take me now  
Come and rock me in the city

Rap 2

The sea feels cool and when I'm dried off you know it's  
over to the barbecue  
the party starts at noon but it's a beach thing and I'm  
holding more ass than a G-string  
Just blazing up I'm getting hot from the rays and the  
force of my paper cut  
Just coolin with my peeps beach bunnies showing out  
from the waist to the back seat  
The summer fest year after year I'm in the sun and my  
body's feelin blessed

Maxin and relaxin a little one on one coz all the ladies  
love my vaccine  
Paradise sim for your your ears so you can bring the  
boys and we can bring a gang of beers  
Summers the lick and it's a pity  
If you and yours ain't loungin' in the city

### Rap 3

We took a crazy loop and broke it down before with our  
madness now we come to up the score  
N-trance in the sun shine the force and we ruff rhyme  
The paradise sim and the whole nine  
the lyrical something it's got mad heads nodding and  
sound systems all bumping  
Summers the lick and it's a pity coz we be livin' large in  
paradise city
