Here I go again, singing like we did back then  
Don't you ever hear the words I say  
Why do you go to war, tell me what you'r fighting for  
Will you ever see another day.  
I don't care about race or religion, It's hard to fight,  
easy to listen  
Live your life before it's gone, making sense where  
there is none  
See the sun as it star is a new day, watch the clouds as  
they're turning away  
Takin' away the fear and greed, just a little hope is  
what we need.

People let me hear you say  
All we need is some love, some love  
That's all we need  
That's all we need

I just can't forget, how did I feel no regret  
When I think of all the things I've done  
Then a tear will fall, makes mg life seem very small  
Looking down the barrel of a gun. Why is it our nature  
to kill?  
We always have, we always will  
Find a wag for life to survive, only faith can keep us  
alive  
Out of the dark and in to the light, a new beginning is in  
sight  
Now it's time to follow mg lead, just a little trust is what  
we need.

Now here comes the love daddy '0' with ma sugar flow  
leave da world alone  
Give the young ones a chance to grow up, a drink from  
the fountains of love,  
All wars will end, all colours should blend.  
Coz I be the same as you be but when someone sees  
me,  
Even though I'm raw I'm still humanity and it don't  
matter what ya use to,  
We are the world and we be da future.
