Alcohol and pills, a night with some thrills  
Go out with my friends and leave a good will  
Some smoke and some buff, now I'm so tough  
My ignorant habit gets deeper and deeper  
I'm Batman, I'm Robin, I'm Bonnie & Clyde  
For truth and justice, the American way  
Now I've become what I wanted to be  
But I can't face reality

Emergency [2x]

*I've come a long way, do you hear what I say  
There's no need to bother with an education  
My school grades are dropping and I've lost my job  
The pain in my soul gets weaker and weaker  
The party has started it's Saturday night  
Time to stretch my imagination  
The darkness of night, a bright flashing light  
There's no turning back, it's time to die  
Emergency [4x]*

*An ambulance ride to a hospital bed  
Feel such an effort to open my eyes  
An IV tube, some hypo shots  
My blood is polluted with conflicting drugs  
The last thing I see as the darkness drops down  
I am surrounded by nervous doctors  
My body grows cold, my eyes won't stay open  
Finally my heart stops it's useless struggle*
