Slowly taking off your veil of discipline
Underneath you hide a dark and feral grin

So kill me, so bleed me
You know I play on

Eyes electrify my bones now black as death
Lips that leave a stain with no more than a breath

So fill me, completely
You know I play on

So kill me, completely
You know I play on

Slowly taking off your veil of discipline
Underneath you hide a dark and feral grin
Eyes electrify my bones now black as death
Lips that leave a stain with no more than a breath
