[Verse 1: Sonny]

Live from the belly of the beast
With a little more bounce and we all back east, sheesh
Young as hell but time will tell who the f*ck we're meant
to be
See I figured out a couple more ways
We could all get by, we could all get paid
Live a little, die a little, smoke a little,
Drink a little bit and hope that all this fades, word
Twenty-one twenty-one twenty-what, rooms on them,
drinks on us
Vibe is free, the moment too, a toast to being young
and a shot for you
Don't worry, what's your hurry? Party's better once it's
blurry
Never seen you drunk this early, guess I did that, yeah
you heard me, oops

[Hook: Sid Sriram]

I guess were young enough to live it up
And old enough to give a f*ck
So what's the point in never givin' up
'Cause we're just giving them
Everything they gave to us
[x2]

[Verse 2: Sonny]

Live from the city of the best
With a couple more rings than they got out west, yes
Cold as hell, they old as hell, it's time to reinvest, bet
Back with a whole new plan god damn, I think this one's
our year, cheers
Running with the same old crew breaking rules like we
don't even care, fair
Twenty-one twenty-one twenty-what, drinks on them,
rooms on us
Vibe is free, the moment too, a toast to being young
and a shot for you
Don't worry, what's your hurry? Party's better once it's
blurry
Never seen you drunk this early, guess I did that, yeah

you heard me, oops!

[Hook: Sid Sriram]

I guess were young enough to live it up
And old enough to give a f*ck
So what's the point in never givin' up
'Cause we're just giving them
Everything they gave to us
[x2]

[Sonny]

Hold it down and live it up
If you ever gotta fight don't give it up
I got you, yeah I got you
We're too young to ever give this up
We're too young to even give a f*ck
So I make for them, what they gave to us
[x2]

[Hook: Sid Sriram]

I guess were young enough to live it up
And old enough to give a f*ck
So what's the point in never givin' up
'Cause we're just giving them
Everything they gave to us
