

## Death Grips "Blistered"

Visit "[Blistered](#)" on MotoLyrics.com

It's six o'clock and I'm dying for you  
Does this town give a shit about me  
I guess I'm just like everybody  
Or everybody is just like me

You can't take me down,  
Your nothing in my eyes,  
You'll never see inside, where I am blistered  
You can't take me down  
Your taking what what is mine  
But I see through your disguise  
I am blistered

This night may last forever  
I can't take this life much longer  
If I take my chance to get out (if I ever get out of this town)  
I will never say goodbye

Loneliness won't last forever, could this finally be over  
Soon I'll have you right where I want you
