Triple six, five, forked tongue  
Subatomic penetration rapid fire through your skull  
How I shot it on one taking it back to the days of trying  
to lose control  
Swerving in a blaze of fire, raging through my bones  
Oh shit I'm feeling it - Takyon  
Hell yeah, fuck yeah, I feel like killing it - Takyon  
Alright that's tight, what its like to experience - Takyon

Out of the blue, in through the back  
Door coming through like fuck what was that  
Man I don't know, but it made me feel so heated  
How we creep without showing you jack  
Shit from below, give a shit if you know  
Cuz even if you did, you'd keep coming back  
Back for more, need it man you're addicted to the heat  
We make beats catch  
Beat it til it bleeds to death, each track  
Like EPMD snappin necks as we tap energy from  
everything on and off the map

Oh shit I'm feeling it - Takyon  
Hell yeah, fuck yeah I feel like killing it - Takyon  
Alright that's tight what its like to experience - Takyon

Takyon, shot down your throat like a keg of beer  
Choke on the smoke we in and exhale til the whole  
chamber is clear  
Haters act so fucking weird  
Try to stain this atmosphere  
But they can't cuz its way too sheer  
How to make a hater disappear

Take shit where it ain't never been  
Fuck what you thought could not comprehend  
This shit if I fisted your brain with it  
10-9-8-7-triple 6-5-forked tongue  
Criminal level crunk lightning storm  
Get out the way or get up torn  
Ain't a picture big enough to fit  
What we dig up from the core

Of all that they forgot ever was  
Militant march of this war

Takyon - taking them down  
All we see is blood  
Takyon - turning them out  
How to trick out and freak that buzz

Oh shit I'm feeling it - Takyon  
Hell yeah, fuck yeah I feel like killing it - Takyon  
Alright that's tight what its like to experience - Takyon

Lunar eclipse forcing you to trip  
Off the moonlit fire we spray  
Cryonic haunted bullets hollow tipped with toxic waste  
So here's the deal, if you don't feel ill  
Don't want it nowhere near my zone  
That shit is dead, can't nobody get  
With that shit gets dial toned

Takyon - bitch slappin pussy clots and clones  
Takyon - settin off unibombs inside your dome

Oh shit I'm feeling it - Takyon  
Hell yeah, fuck yeah I feel like killing it - Takyon  
Alright that's tight what its like to experience - Takyon
