Can somebody tell me where
I might feel like myself again
And how long will it be
'Til I can face this reality
My friends are calling
But I can't get out of bed
Because I'm so afraid
That the tears will start to fall again

So what can I say
Girl what can I do
Baby can't you see that I'm missing you
There's no where to run
There's no where to hide
And you know it's tearing me up inside
Everytime we were together
And I feel loving arms around me
But that we would last forever
But I'm alone tonight

And I beggin you please, give it one more try
You know we were so good together
Girl I need a kiss
Not a kiss goodbye
A memory, now and 'til forever

Like a sad movie on a screen
Our story has no happy ending
Now my world is cold like fallen snow
A cold lonely wind blows
We kissed goodbye on a lonely street
And then you walked away from me
Now my heart, it waits, to accept sorrow

Tell me how to make you see
What I'm feeling in my heart
'cause I'm hanging on memories
And try not to fall apart
It's like I'm drifting
Like a kite with a broken string
I keep holding on
But girl I really need you here with me

So what can I say
Girl what can I do
Baby can't you see that I'm missing you
There's no where to run
There's no where to hide
And you know it's tearing me up inside
Everytime we were together
And I feel loving arms around me
But that we would last forever
But I'm alone tonight

And I beggin you please, give it one more try
You know we were so good together
Girl I need a kiss
Not a kiss goodbye
A memory, now and 'til forever, yeah

I'm beggin you please, give us one more try
You know we were so good together
Girl I need a kiss
Not a kiss goodbye
A memory, now and 'til forever
