We all have problems
In this world yes we do
It's all up to us to decipher what to do

Are you gonna crawl back into bed
An pull the covers over your head
Or get up and figure out
You gotta path that's meant for you

It's all up to you
It's all up to you
It's all up to you now baby
It's all up to you

So get up, get up
Figure it out
Get up
Figure it out
Get up
Figure it out
You gotta path that's meant for you

It didn't happen over night
It took a little time to get you there
I'm telling you now baby girl
Get up and brush your hair

You're gonna feel better in the morning
You'll feel better in the night
You'll feel better in the morning
Cause everything will be be alright

It's all up to you
It's all up to you
It's all up to you now baby
It's all up to you

So get up, get up
Figure it out
Get up
Figure it out
Get up

Figure it out
A couple of tactics or two

Or two or three or four or more
Whatever it takes
To get you there

Or two or three or four or more
Whatever it takes
To get you there

Whatever it takes
To get you there
Whatever it takes
To get you there

It's all up to you
It's all up to you
It's all up to you now baby
It's all up to you

So get up, get up
Figure it out
Get up
Figure it out
Get up
Figure it out
You gotta path that's meant for you

So get up, get up
Figure it out
Get up
Figure it out
Get up
Figure it out
You gotta path that's meant for you

It's all up to you
It's all up to you
It's all up to you now baby
It's all up to you
