Maybe If You were them then you would get it  
You finally understand what their going through  
but no you won't even ask and its like u don't wanna  
care  
and bullying is all you wanna do  
buts thats not okay with me.

\*Don't Judge  
Cuz You Don't Know Their Stories  
You Don't Understand Like you think you do  
Ain't it true?  
How would you like it if they did that to you?  
Just Don't Judge\*

Bet it feels great to push someone down  
Just to feel like on top of the world  
Even if they all seem afraid and hurt because of you  
is that why you wanna keep them out?  
Thats not right.

\*Refrain\*

So turn around and apologize  
I can't guarentee they'll forgive you this time  
but then again what do i know?

\*refrain\*  
oh don't judge
