Tonight, get out of my way
I've got the world to my back
It's that kind of day and you
Can't stop me now, from feeling insane
It's all upside down but i like it that way

My life twisted as it seems
I'm torn in between of my dreams and reality
It's not what It seems
Far and in between a vicious cycle of reality

Through It All

Sunny day, with a moonlit night
It turned out right, its a change of pace with my
head to the sky and my feet on the ground
It turned around, hope it stays this way

My life twisted as it seems
I'm torn in between of my dreams and reality
It's not what It seems
Far and in between a vicious cycle of reality

Nothing's what it seems
Torn in between
This Reality!
Through It All
