[Intro]

Sample from the chorus: "When I'm A Kid" by Demis Roussos

Let's go back, back, back
To when they use to shapeshift
And shift rap back
Before I picked up the mic
I started writing rhymes
I can alter my form in any given time
Shapeshift (x2)
Shape shape shift shift
Shapeshift
Let me take you back to the start
When I first started shapeshifting
After class a school bully wanted me kicked in
It was little D running for his life
With his heartbeat bu-bu-bu-bu-bumping inside
Morphed into a Cheetah
Them cheats couldn't keep up
Sixty miles per hour was his speed a was G 1
Going straight to my mother's arms
Even try to morph into a car a bus a shiny gold bar
I started go hard
Even Bret 'The Hitman' Hart
But my momma couldn't see it she just laughed
Keep to your self
You're a crazy boy
Get in the bath
And you better scrub hard in those hard to reach parts
I was lighten up
I'm a superhero mom honest
You should of seen me earlier
Running like Sonic
The fools couldn't catch me
Believe I was on it
Watch shapeshift are you watching?
Let's go back, back, back
To when they use to shapeshift
And shift rap back
Before I picked up the mic
I started writing rhymes

I can alter my form in any given time
Shapeshift (x2)
Shape shape shift shift
Shapeshift
I'm a bird
I'm a tree
I'm a bike
I'm a plane
On the ground underneath your feet
I'm the rain in the sky
I'm a cloud
I'm a Sun
I'm a star
Pushing roots through Saturn's rings world's in my
palm
I'm a bed
I'm a dog
I'm a chair so get off
I'm an action figure but I'm not trap in a box
I'm free
Free with the world at my feet
Hummin A-Team's theme
As I'm running down the street
With my chalkboard knees Sun shines
Smile beams
If you're feeling hungry
I'm your quarter-pounder cheese
But if you're feeling angry
I'm your punch bug release but
Don't go to wild you might knock out my teeth
Huh, Watch the kidneys beneath
I'm only a wee high
Still pee on the sheets
I still read The Beano
Every night after tea
Cause I'm drawing inspiration for the next thing to be
Then it's
Back, back, back
To when they use to shapeshift
And shift rap back
Before I picked up the mic
I started writing rhymes
I can alter my form in any given time
Shapeshift (x2)
Shape shape shift shift
Shapeshift
Transmute
Alter
Morph
Switch
I am lawless

You're a myth
So poor for choice
Now my cranium aches
Cause my brains' in over-draft
Move all over the place
Inspiration runs through my veins
Just turn my kitten into a gobstopper think i might have
a taste
I'm like a space-boot
Two steps out of this world
Surf the tablet of my mind across the ocean of thought
Brainwaves help to excel
Hope will prevail
Push me to shore so I can be sure of myself
Now if you have these powers tell me now
What would you do?
Would you morph into the Devil?
Would you help to improve the foundation of society?
What would you lose?
Would you morph into a yard and help your momma to
move
I need some new shoes to help my feet and some
Jordan 3's
The skin on my legs
Form a pair of denim jeans
To morph a wrist into a gold watch
I'm blinged up
You need to come a little closer if you want to see
Back, back, back
To when they use to shapeshift
And shift rap back
Before I picked up the mic
I started writing rhymes
I can alter my form in any given time
Shapeshift (x2)
Shape shape shift shift
Shapeshift
