*I can't fall asleep and found your heart
i don't want awake and i know
thats just a fake coz u're kill me
with a distance in your hand

You bring me to sky and i can see
a paradise that you give me
and now you know i want you here
coz all my dream is fragil

reff:
i saw someone in the corner
thats a preety girl with a picture
she's crying and never stop it
and i know that if she scared
Its not something about love
or who is my love, i tell u. .

Back to * and reff

That this world is change
the crazy thing killed brain
and some prefer nettles

Could you see
, I'm here waiting for your love in my way
tell me and don't be a liar
Hold my hand
i want you smile and forget the sorrow
coz i don't want to let you go
