Close the door  
Turn the key  
Locked away for eternity  
Sail away from my shore  
Leave me here  
Wanting more

At first you said you want me  
Then you just change your mind  
And now it seems you're pushing me aside  
And even though you hurt me  
Like no one ever could  
Don't you know I would

I'd swim the oceans  
Sail the seven seas  
I'd pray to God  
And get down on my knees  
Theres nothing that I wouldn't do  
If I could make you love me  
I'd climb a mountain  
Run a million miles  
Just to hold you for a little while  
Nothing would stop me loving you  
If I could make you love me too

If I could make you love me

You can't look in my eyes  
Try to hide  
But theres no disguise  
Can we turn the page  
And start again  
Or is this where our story ends

And now that you don't want me  
It's messing up my mind  
And so it seems you're leaving me behind  
And since that day you left me  
I guess you always knew  
The things i'd do for you

I'd swim the oceans  
Sail the seven seas  
I'd pray to God  
And get down on my knees  
Theres nothing that I wouldn't do  
If I could make you love me  
I'd climb a mountain  
Run a million miles  
Just to hold you for a little while  
Nothing would stop me loving you  
If I could make you love me too

If I could make, make you love me  
Make you love me

oooh

If I could make, make you love me  
Make you love me

I'd climb a mountain  
Run a million miles  
Just to hold you for a little while  
Nothing would stop me loving you  
If I could make you love me too

oooh
