And what I saw today was more than I can take
I'll say this honestly
I was afraid
And the pieces are coming together now
But there's still just so many things to figure out
This time there's so many things that I would want the
world to take away
This time it feels so right
And it's time is done, it's time to run
And it's all you have
And it's all you have for now

Leave the past, there's nothing left
And it's over now, I'll show you how
And it's all you have
And it's all you have for now

You know it 'cause you thought about it
And when you sing about it, it's all right
Don't be afraid to let it go(oh)
And the pieces are coming together now
But there's still just so many things to figure out
This time there's so many things that I would want the
world to take away

This time it feels so right
And it's time is done, it's time to run
And it's all you have
And it's all you have for now
Leave the past, there's nothing left
And it's over now, I'll show you how
And it's all you have
And it's all you have for now

All this pain, it's a shame
You never talk about it
You know in so many words it's all right
It's a game on your face, you know you can't deny it
And now it's you in the dark until sunrise

This time it feels so right
And it's time is done, it's time to run

And it's, it's all you have
For now
Leave the past, there's nothing left
And it's over now, I'll show you how
And it's all you have
And it's all you have
