Life turns into matter
The form itself is minimal
All the elements are free
Transform into life

The cycle is power
The secret lies within
Completing the origin
(2X)

Life turns into matter
The form itself is minimal
All the elements are free
Transform into life

Life, Life, Life, Life
Yeah

The cycle is power
The secret lies within
Completing the origin
(2X)

Life turns into matter
The form itself is minimal
All the elements are free
Transform into life
