

Devin Townsend Project "Trainfire"

Visit "[Trainfire](#)" on MotoLyrics.com

How in the world we gonna make everything alright?
How in the world we gonna make everything in time?
Train burning, all night burning...
Trainfire up and down the line.

How in the world we gonna make everything alright?
How in the world we gonna make everything in time?
Train burning, all night burning...
Trainfire up and down the line.

Sex sees seventeen year old
Moving me up and down the pole
You won't tell me what I need to know
So the train burns, all night burns, Trainfire up and
down the line.

Move me,

How in the world we gonna make everything alright?
How in the world we gonna make everything on time?
Train burning, all night burning...
Trainfire...

Trainfire up and down the line!

Sex sees seventeen year old
Moving me up and down the pole
She don't tell me what I need to know
Train upon the quantum, a Kai, the string theory...
Trainfire up and down the line!

Trainfire, trainfire, trainfire...

So, you called my name
Left on a weary road beyond your ways
May all the other colors of your name
...go.
