From the day he introduced us  
I thought to myself why couldn't it be you  
He doesn't look at me the way you do  
I can see, I can feel the passion that you have  
For me  
But you're with her

Hook  
What what if we  
What if what if we what if what if we we  
Took it there tonight  
What if we what if we what if we  
Crossed that line tonight  
What What if we  
I'll be up that way way

You know where him and I stand  
I know where you and her stand  
Somewhere in the midst of all this confusion  
Our hearts collide It's the law of attraction  
You think of me, I think of you

Hook

What if we took the chance  
And hurt the ones we love  
But at the same time  
Made something baby baby  
You and I, as one

Hook
