Sadness runs, lonely dies
Fear explodes
Moment you arrive
And all the stars align, I'm fine

Life's a trip, start to fall
Just in time
I float inside your eyes
I sit there for a while and smile

You know there's somebody out there
You know there's something out there
What are you waiting for?
Well, what are you waiting for?

Come aboard the rocket ship
We're blasting through the milky way
Where love is a billion meteors
Crash landing into you

True love in the galaxy
True love in the galaxy
True love in the galaxy

True love in the galaxy
True love in the galaxy

Have you heard crazy news?
Isn't true
They say that love, it dies
Can't believe the lies, they lie

They don't know where we live
The galaxy where love surpasses love
I wish they'd all just come with us

You know there's somebody out there
Well, what are you waiting for?

Come aboard the rocket ship
We're blasting through the milky way
Where love is a billion meteors

Crash landing into you

True love in the galaxy
True love in the galaxy
True love in the galaxy

True love in the galaxy
True love in the galaxy
True love in the galaxy

Come aboard the rocket ship
Blasting through the milky way
Where love is a billion meteors
Crash landing into you

Come aboard the rocket ship
Leave your broken dreams on earth
'Cause love is a billion meteors
Keep crashing into you

True love in the galaxy
True love in the galaxy
True love in the galaxy

True love in the galaxy
True love in the galaxy
True love in the galaxy

True love in the galaxy
True love in the galaxy
